Revision 1

FLUORINATED COMPOUNDS

STATEMENT

All Products

This memo is to certify that BioSpectra products do not contain any fluorinated compounds classified under Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS). Fluorinated compounds include: PFOA, PFOS, GenX, or any other fluorinated compounds classified under PFAS according to applicable regulations (i.e. U.S. EPA, REACH (ECHA) or relevant state laws). BioSpectra products do not come in contact with any materials, intermediates or by-products that contain fluorinated compounds. Furthermore, fluorinated compounds are not used in any manufacturing processes or operations, nor are they intentionally added to supplied products at any BioSpectra facilities.
